DIV OF HAZARDOUS MATERIAL  
AND WASTE MANAGEMENT

TO: Richard M. Fry, Manager  
Field Operations Branch

THROUGH: ROSS SINGLETON, Environmental Supervisor  
Field Operations Branch

FROM: ROBERT KOENTOP, Environmental Specialist RK  
Field Operations Branch

SUBJECT: Louisville Varnish - A. L. Taylor Site

Attached is a modified Hazardous Waste Manifest Form regarding the hauling of seventeen (17) drums identified by Louisville Varnish from the Valley of the Drums, to the plant in Louisville (see memorandum dated August 21, 1980).

Mr. Ed Thomasson (Louisville Varnish) and myself inspected and identified the contents of each drum. The following was recorded:

1. Eight (8) drums contained sludges of paint and varnish
2. Five (5) drums contained waste solvent
3. Three (3) drums contained washwater from plant clean-up operations.
4. One (1) drum contained general refuse.
5. One (1) drum was considered empty.

NOTE: The discrepancy of eighteen (18) recorded drums versus seventeen (17) identified drums results from the transfer of contents from one solvent drum (containing a small leak) to a new drum brought from the plant. The leaking drum contained some sludge.

I requested that Mr. Thomasson reverify (at the plant) the contents and amounts of materials hauled from the Valley. Additionally, a written record must be submitted as to what materials were incorporated into Louisville Varnish's various waste streams and that the final depositions of those streams must be stated.

NOTE: I informed Mr. Clayton Simon (verbally) that any drum to be considered empty must meet the Division's definition of a non-hazardous empty drum.

### POOR LEGIBILITY

PORTIONS OF THIS DOCUMENT MAY BE  
DIFFICULT TO VIEW DUE TO THE QUALITY OF  
THE ORIGINAL.

TO MAKE THE DOCUMENT READABLE, TRY  
ONE OR MORE OF THE FOLLOWING:

From the Displays Settings in Windows Control Panel:

1. Set the Color Quality to the highest available: 24 bit or 36 bit.
2. Increase or decrease the Screen resolution.

From the Monitor/Display Controls:

1. For dark image page, increase the brightness and decrease the contrast.
2. For light image page, decrease the brightness and increase the contrast.
